Worship and Family News

For physical training is of some value, but godliness has value for all things, holding promise for both the present life and the life to come. This is a trustworthy saying that deserves full acceptance. That is why we labor and strive, because we have put our hope in the living God, who is the Savior of all people, and especially of those who believe.

Command and teach these things. Don't let anyone look down on you because you are young, but set an example for the believers in speech, in conduct, in love, in faith and in purity. Until I come, devote yourself to the public reading of Scripture, to preaching and to teaching. Do not neglect your gift, which was given you through prophecy when the body of elders laid their hands on you.

Be diligent in these matters; give yourself wholly to them, so that everyone may see your progress. Watch your life and doctrine closely. Persevere in them, because if you do, you will save both yourself and your hearers. 1 Timothy 4:8-16

Sidney Williams' had a PET scan this past Friday. **Gracie Williams** has an MRI scheduled for her shoulder and neck. Please pray that the results of the scans are conclusive.

Family Happenings

Dinners on the Grounds will resume on August 1! It's been since March 2020 that we have had one of those. For those of you who are unfamiliar with the event, it's a monthly pot-luck supper in the fellowship hall following Sunday morning services. It's a time for fellowship—and good food.

There will be a work party the morning of July 31 to prepare for dinner on the grounds. Please come and help set things up and rearrange the auditorium and fellowship hall to make this long-awaited event a great one. Thanks.

Praise Report

Good news report: They have found an ECMO bed for Bill at Advent in Orlando!! They transported him Saturday afternoon via ambulance. They are working on the logistics but the receiving doctor has already accepted him! The process will cycle his blood through the machine, oxygenate his blood, and pump it back into his body. They said they have had the most success with COVID patients using this process. And the doctor is very hopeful that this may push Bill to start showing improvement.
